Introduction

This report provides a review of the key factors that influence the SEO and usability of your website.

The homepage rank is a grade on a 100-point scale that represents your Internet Marketing Effectiveness. The algorithm is based on 70 criteria including search engine data, website structure, site performance and others. A rank lower than 40 means that there are a lot of areas to improve. A rank above 70 is a good mark and means that your website is probably well optimized.

Internal pages are ranked on a scale of A+ through E and are based on an analysis of nearly 30 criteria.

Our reports provide actionable advice to improve a site's business objectives.

This table highlights the importance of being consistent with your use of keywords.

To improve the chance of ranking well in search results for a specific keyword, make sure you include it in some or all of the following: page URL, page content, title tag, meta description, header tags, image alt attributes, internal link anchor text and backlink anchor text.

Alt Attribute

We found 45 images on this web page
 2 ALT attributes are empty or missing.

<https://www.facebook.com/tr?id=1437033881370875&ev=PageView&noscript=1>
/__15e/assets-v1/f7022a0c-7f49-4b98-8de0-e7466df4727d/capsule_hero.png

Alternative text is used to describe images to give the search engine crawlers (and the visually impaired).
Also, more information to help them understand images, which can help them to appear in Google Images search results.

Text/HTML Ratio

HTML to Text Ratio is: **9.17%**
Text content size 33823 bytes
Total HTML size 368869 bytes

Code to text ratio represents the percentage of actual text on a web page compared to the percentage of HTML code, and it is used by search engines to calculate the relevancy of a web page.
A higher code to text ratio will increase your chances of getting a better rank in search engine results.

GZIP compression

Wow! It's GZIP Enabled.
 Your webpage is compressed from 360 KB to 47 KB (86.9 % size savings)

Gzip is a method of compressing files (making them smaller) for faster network transfers.
It allows to reduce the size of web pages and any other typical web files to about 30% or less of its original size before it transfer.

 **IP Canonicalization** No your domain IP 185.158.133.1 does not redirect to dirtyrootsherbs.com
  

To check this for your website, enter your IP address in the browser and see if your site loads with the IP address.
Ideally, the IP should redirect to your website's URL or to a page from your website hosting provider.
If it does not redirect, you should do an htaccess 301 redirect to make sure the IP does not get indexed.

 **URL Rewrite** Good, all URLs look clean and friendly
  

Your site's URLs contain unnecessary elements that make them look complicated.
A URL must be easy to read and remember for users. Search engines need URLs to be clean and include your page's most important keywords.
Clean URLs are also useful when shared on social media as they explain the page's content.

 **Underscores in the URLs** Great, you are not using underscores (these_are_underscores) in your URLs
  

Great, you are not using ?underscores (these_are_underscores) in your URLs.
While Google treats hyphens as word separators, it does not for underscores.

WWW Resolve

Great, a redirect is in place to redirect traffic from your non-preferred domain.

Redirecting requests from a non-preferred domain is important because search engines consider URLs with and without "www" as two different websites.

XML Sitemap

Oh no, XML Sitemap file not found!
<http://dirtyrootsherbs.com/sitemap.xml>

A robots.txt file allows you to restrict the access of search engine robots that crawl the web and it can prevent these robots from accessing specific directories and pages. It also specifies where the XML sitemap file is located.

You can check for errors in your robots.txt file using Google Search Console (formerly Webmaster Tools) by selecting 'Robots.txt Tester' under 'Crawl'. This also allows you to test individual pages to make sure that Googlebot has the appropriate access.

Robots.txt

Oh no, Robots.txt file not found!
<http://dirtyrootsherbs.com/robots.txt>

A sitemap lists URLs that are available for crawling and can include additional information like your site's latest updates, frequency of changes and importance of the URLs. This allows search engines to crawl the site more intelligently.

We recommend that you generate an XML sitemap for your website and submit it to both Google Search Console and Bing Webmaster Tools. It is also good practice to specify your sitemap's location in your robots.txt file.

Embedded Objects

Perfect, no embedded objects has been detected on this page

Embedded Objects such as Flash. It should only be used for specific enhancements.
Although Flash content often looks nicer, it cannot be properly indexed by search engines.
Avoid full Flash websites to maximize SEO.

Iframe

Perfect, no Iframe content has been detected on this page

Frames can cause problems on your web page because search engines will not crawl or index the content within them.
Avoid frames whenever possible and use a NoFrames tag if you must use them.

Domain Registration

Exactly how many years and months

Domain Age: 1 Year, 231 Days

Created Date: 17th-Dec-2024

Updated Date: 17th-Dec-2024

Expiry Date: 17th-Dec-2026

Domain age matters to a certain extent and newer domains generally struggle to get indexed and rank high in search results for their first few months (depending on other associated ranking factors). Consider buying a second-hand domain name.
Do you know that you can register your domain for up to 10 years? By doing so, you will show the world that you are serious about your business.

Indexed Pages

Indexed pages in search engines

0 Page(s)

This is the number of pages that we have discovered on your website.

A low number can indicate that bots are unable to discover your webpages, which is a common cause of a bad site architecture & internal linking, or you're unknowingly preventing bots and search engines from crawling & indexing your pages.

Backlinks Counter

Number of backlinks to your website

686 Backlink(s)

Backlinks are links that point to your website from other websites. They are like letters of recommendation for your site.

Since this factor is crucial to SEO, you should have a strategy to improve the quantity and quality of backlinks.

URL

`http://dirtyrootsherbs.com`

Length: 15 characters

Keep your URLs short and avoid long domain names when possible.

A descriptive URL is better recognized by search engines.

A user should be able to look at the address bar and make an accurate guess about the content of the page before reaching it (e.g., `http://www.mysite.com/en/products`).

Favicon

Great, your website has a favicon.

Favicons improve a brand's visibility.

As a favicon is especially important for users bookmarking your website, make sure it is consistent with your brand.

Custom 404 Page

Great, your website has a custom 404 error page.

When a visitor encounters a 404 File Not Found error on your site, you're on the verge of losing the visitor that you've worked so hard to obtain through the search engines and third party links.

Creating your custom 404 error page allows you to minimize the number of visitors lost that way.

Page Size

349 KB (World Wide Web average is 320 Kb)

Two of the main reasons for an increase in page size are images and JavaScript files.

Page size affects the speed of your website; try to keep your page size below 2 Mb.

Tip: Use images with a small size and optimize their download with gzip.

Load Time

0.55 second(s)

Site speed is an important factor for ranking high in Google search results and enriching the user experience.

Resources: Check out Google's developer tutorials for tips on how to make your website run faster.

Language

Good, you have declared your language
Declared Language: English

Make sure your declared language is the same as the language detected by Google

Also, define the language of the content in each page's HTML code.

Email Privacy

Email address has been found in plain text!

We don't recommend adding plain text/linked email addresses to your webpages.

As malicious bots scrape the web in search of email addresses to spam. Instead, consider using a contact form.

Safe Browsing

The website is not blacklisted and looks safe to use.

Safe Browsing to identify unsafe websites and notify users and webmasters so they can protect themselves from harm.

Mobile Friendliness

Oh No! This page is not mobile-friendly.
Your mobile friendly score is 0/100

Mobile Friendliness refers to the usability aspects of your mobile website, which Google uses as a ranking signal in mobile search results.

Mobile Compatibility

Perfect, no embedded objects detected.

Embedded Objects such as Flash, Silverlight or Java. It should only be used for specific enhancements.

But avoid using Embedded Objects, so your content can be accessed on all devices.

Mobile View

The number of people using the Mobile Web is huge; over 75 percent of consumers have access to smartphones. ??

Your website should look nice on the most popular mobile devices.

Tip: Use an analytics tool to track mobile usage of your website.

● **Server IP**
⚙️⚙️⚙️

Server IP	Server Location	Service Provider
185.158.133.1	Not Available	Not Available

Your server's IP address has little impact on your SEO. Nevertheless, try to host your website on a server which is geographically close to your visitors.

Search engines take the geolocation of a server into account as well as the server speed.

✖ **Speed Tips**
⚙️⚙️⚙️

Tips for authoring fast-loading HTML pages:

- ✖ Too bad, your website has too many CSS files.
- ✖ Too bad, your website has too many JavaScript files.
- ✔ Perfect, your website doesn't use nested tables.
- ✖ Too bad, your website is using inline styles.

Website speed has a huge impact on performance, affecting user experience, conversion rates and even rankings.

???By reducing page load-times, users are less likely to get distracted and the search engines are more likely to reward you by ranking your pages higher in the SERPs.

Conversion rates are far higher for websites that load faster than their slower competitors.

✔ **Analytics**
⚙️⚙️⚙️

Perfect, We detect an analytics tool installed on this website.

Web analytics let you measure visitor activity on your website.

You should have at least one analytics tool installed, but It can also be good to install a second in order to cross-check the data.

Doc Type

Your Web Page doctype is HTML 5

The Doctype is used to instruct web browsers about the document type being used.

For example, what version of HTML the page is written in.

Declaring a doctype helps web browsers to render content correctly.

W3C Validity

W3C not validated

W3C is a consortium that sets web standards.

Using valid markup that contains no errors is important because syntax errors can make your page difficult for search engines to index.

Run the W3C validation service whenever changes are made to your website's code.

Encoding

Great, language/character encoding is specified: UTF-8

Specifying language/character encoding can prevent problems with the rendering of special characters.

Social Data

Your social media status

	Facebook: 	Wellnessmogul
	Twitter: 	Wellnessmogull
	Instagram: 	Poweredbynatureherbs

Social data refers to data individuals create that is knowingly and voluntarily shared by them.

Cost and overhead previously rendered this semi-public form of communication unfeasible.

But advances in social networking technology from 2004-2010 has made broader concepts of sharing possible.

 Traffic Rank

No Global Rank

A low rank means that your website gets a lot of visitors.

Your Alexa Rank is a good estimate of the worldwide traffic to your website, although it is not 100 percent accurate.

Visitors Localization

Your website is popular on following countries:

Popularity at	None
Regional Rank	None

We recommend that you book the domain names for the countries where your ??website is popular.

This will prevent potential competitors from registering these domains and taking advantage of your reputation in such countries.

Bone Rock5.0 (2) There comes a point in every soldier's journey when the fire begins to flicker—when the energy that once powered late nights, early mornings, hard work, and wild passion starts to dim. It's not weakness. It's not defeat. It's a signal—a call to reclaim what's always been yours. For generations, warriors, kings, and builders of empires turned to the earth for strength. From the heart of Africa to the mountains of the East, ancient traditions uncovered botanicals that fueled power, sharpened drive, and reignited the inner spark that pushes a man to conquer life on every front. Bone Rock was born from that legacy. A fusion of rare African roots and revered Chinese herbs, it's crafted for those who refuse to settle for fading strength or quiet surrender. This formula is more than support—it's a return to form. It helps restore the deep well of energy and unshakable presence that defines those who lead, build, and live boldly. Because when that inner fire is lit—when focus sharpens, stamina rises, and confidence returns—you don't just show up. You dominate. It's your time to rise. Bone Rock is here to fuel the comeback. \$59.99Add to Cart Add	Internal Links	Dofollow
2ND ROUND5.0 (2) The PDE-5 enzyme (phosphodiesterase type 5) plays a key role in regulating blood flow by breaking down cyclic guanosine monophosphate (cGMP), a molecule responsible for relaxing blood vessels and improving circulation. In masculine beings, excessive PDE-5 activity can contribute to poor blood flow, leading to issues like malfunction of the slinky. A natural PDE-5 inhibitor, such as those found in foods like watermelon (rich in citrulline) and herbs like ginseng and horny goat weed, helps block this enzyme's activity, allowing for better blood vessel relaxation and improved circulation. By supporting healthy blood flow naturally, these inhibitors can promote optimal wellness, cardiovascular health, and overall strength without the potential side effects of synthetic alternatives. \$49.99Add to Cart Add	Internal Links	Dofollow
Sink Deep4.4 This all-natural botanical formula is designed to support overall vitality, performance, and physical responsiveness. It contains a carefully selected blend of herbal ingredients traditionally used to promote healthy circulation, optimize hormonal balance, and support physical stamina. The formula is intended to assist with firmness, and endurance, contributing to improved function and confidence during "personal time" activity. Safe for long-term use, it offers a natural approach to supporting wellness and performance without synthetic stimulants. \$39.99Add to Cart Add	Internal Links	Dofollow
Masculine Multivitamin5.0 (4) To fully step into one's purpose and strength, the body needs the right fuel. Life gets hectic—meals are skipped, routines break down, and the nutrients that support peak performance often fall by the wayside. That's why we created ManUp, a multivitamin crafted to support a strong, grounded, and fully engaged masculine foundation. This formula helps bridge the nutritional gaps with powerful plant-based nutrients that energize your cells, support overall function, and fortify your entire system. When your foundation is strong, everything else follows. \$39.99Add to Cart Add	Internal Links	Dofollow
Prosta-Zinc5.0 (3) One of the most overlooked areas of the body's wellness system is often undernourished and underserved. The reason? Two main factors: limited blood flow to this region compared to other parts of the body, and a general lack of awareness about the importance of targeted nutritional support. This potent formula is rich in zinc—a key mineral involved in tissue repair, protein synthesis, DNA creation, and hair growth. It's packed with powerful herbs and botanicals traditionally used to cleanse, support, and rejuvenate the lower abdominal and urinary systems. Whether you're focused on long-term vitality or simply want to keep your internal systems operating at their best, this formula provides the nourishment your body has been missing \$47.99Add to Cart Add	Internal Links	Dofollow

Pure Seed4.4 PURE SEED is the ultimate all-natural formula built for those who take their legacy seriously. Designed to fuel vitality and support peak reproductive health, this potent blend is loaded with time-tested herbs known for promoting strength, endurance, and optimal performance where it matters most. Whether you're planning ahead or just want to stay at the top of your game, PURE SEED delivers targeted support to help you feel powerful, energized, and ready. Backed by science and powered by nature, it's your daily edge. Because every legacy starts with strength. Own it with PURE SEED. \$44.99Add to Cart Add	Internal Links	Dofollow
Deep Waters4.5 Nourishes and tones the female organs and glands. Contains some of the worlds most powerful plants that promote an increase female energy as well as assisting in the fertility department. This formula is the complement to our masculine Sink Deep formula. \$35.99Add to Cart Add	Internal Links	Dofollow
Ladies 1st (Women's Multivitamin)5.0 What makes this formula so unique is the diversity and affinity for feeding the entire female reproductive system. The female organs are under attack now more than ever, due to societal demands in addition to a diet high in dairy and meat products. These two factors do not favor the female body as excessive stress, oxidative pressure and worry wear down the system over time. This in turn creates the perfect opportunity for free radicals, bacteria and other toxic pollutants to penetrate the cellular walls of the body showing up as ovarian cysts, fibroid tumors, breast issues and other ailments. Our women's multivitamin is unlike any other on the market today. It not only nourishes the body in it's entirety but it contains nutrients that serve as high level food for the female reproductive organs such as the breasts, cervix, ovaries and vagina. Our formula also contains plants that serve as nutrition for the thyroid gland. \$35.99Add to Cart Add	Internal Links	Dofollow
Mane Crown Vitamins4.3 Give your hair the royal treatment with Mane Crown—the ultimate plant-powered vitamin blend designed to transform your hair from the inside out. Packed with nature's most potent hair-loving nutrients, Mane Crown promotes thicker, fuller, and faster-growing strands while maintaining your hair's natural pigment and boosting scalp health. Say goodbye to thinning, dull hair and hello to vibrant, strong, and resilient tresses. Whether you're battling hair loss, looking to enhance your growth, or just want that salon-worthy shine, Mane Crown is your key to a healthier, more luxurious mane. Crown your hair with greatness. \$34.99Add to Cart Add	Internal Links	Dofollow
Lion's Mane Mushroom4.3 Lion's Mane mushroom (Hericium erinaceus) is a powerful natural supplement known for its cognitive and neurological benefits. Traditionally used in Chinese and Japanese medicine for centuries, this unique, shaggy-looking fungus has been prized for its ability to support brain function, memory, and nerve regeneration. Rich in bioactive compounds like hericenones and erinacines, Lion's Mane stimulates nerve growth factor (NGF), which plays a crucial role in brain health and neuroprotection. Studies suggest it may help enhance focus, reduce brain fog, and even support long-term cognitive resilience. Beyond mental clarity, it also offers anti-inflammatory and immune-boosting properties, making it a well-rounded addition to any wellness routine. Whether in powder, capsule, or tincture form, Lion's Mane is a natural way to nourish the mind and body. \$21.99Add to Cart Add	Internal Links	Dofollow
Moringa Leaf4.2 Moringa leaf, often called the "miracle tree," has been used for centuries in traditional medicine across Africa and Asia. Originating from the Moringa oleifera tree, native to the Himalayan foothills, this nutrient-dense superfood is packed with vitamins, minerals, antioxidants, and essential amino acids. Rich in vitamin C, iron, and calcium, moringa supports immune function, boosts energy, and promotes healthy skin and digestion. Its powerful anti-inflammatory and detoxifying properties help combat oxidative stress and support overall wellness. Whether taken as a powder, tea, or supplement, moringa leaf is a natural way to nourish the body and enhance vitality. \$19.99Add to Cart Add	Internal Links	Dofollow
Probiotics4.2 Probiotics are essential for maintaining a healthy gut, which plays a crucial role in digestion, immune function, and overall well-being. These beneficial bacteria help balance the gut microbiome, supporting better nutrient absorption, reducing bloating, and promoting regular digestion. Plant-based probiotics, derived from fermented foods like kimchi, sauerkraut, and kombucha, offer a natural and dairy-free way to support gut health. Unlike traditional dairy-based probiotics, plant-based options are often easier to digest and come with additional nutrients and antioxidants. Regular consumption of plant-based probiotics can help strengthen the immune system, improve skin health, and enhance mood by supporting the gut-brain connection. \$29.99Add to Cart Add	Internal Links	Dofollow

Peruvian Ginseng Plus4.7 Peruvian ginseng, commonly known as Maca root, is a powerful adaptogen native to the high-altitude regions of the Andes. Used for centuries in traditional medicine, Maca is prized for its ability to boost energy, fortify stamina, and support hormonal balance. Rich in essential vitamins, minerals, and amino acids, it naturally aids in reducing stress, improving mood, and increasing energy levels in both men and women. Additionally, Maca supports cognitive function, elevates endurance, and promotes overall vitality. Whether consumed as a powder, capsule, or extract, Peruvian ginseng is a natural way to fuel the body, balance hormones, and improve overall well-being. \$44.99Add to Cart Add	Internal Links	Dofollow
B Ready4.2 B vitamins are a group of essential nutrients that play a key role in keeping your body energized, balanced, and healthy. Iron Clad4.9 Iron is necessary for many of the body's important functions. In particular it is vital to red blood cell production. Without iron our cell's are unable to produce adequate amount's of oxygen for our blood and body to be healthy. When there is not enough iron, a person is considered to be anemic. To be anemic simply means that you have a deficiency in your red blood cells. With the exception of individuals who live with sickle cell anemia, women that menstruate are generally the ones that most need iron. Iron also plays a vital role in hair growth among many other things. Our iron is unlike any other iron supplement. It is headlined by iodine rich sea vegetables such as kelp along with mucus eructing plants like mullein leaf. This iron supplement is so unique in that it serves a much more deeper function than just providing iron to the body. Conventional iron supplements are not fully absorbed by the body and generally can cause constipation. The body has a difficult time synthesizing iron that is inorganic. These inorganic forms are classified under the names ferrous fumarate and ferrous sulfate. The Plant Iron Plus herbal formula is pure plant iron. \$27.99Add to Cart Add	Internal Links	Dofollow

Mucus Broom5.0 (1) Mucus though a necessary part of the human biological makeup can prove to be detrimental depending upon the kind of mucus, amount of mucus and location of the mucus present in the body. Our mucous membranes secrete mucus for our protection. When there is an abnormal amount of mucus present in the body it generally is a sign that your system is fighting a battle to protect you from excessive acidity, pathogens, bacteria, microbials and additional offending agents that attack the body. The Mucus Broom is specifically crafted to help expel unwanted mucus in an effort to promote an environment for optimum and efficient usage of the entire body's cells, tissues, muscles, bones, blood and organs. This formula is equipped with 8 of the world's best herbs that are synonymous with driving mucus from the cells and tissues of the body. \$28.99Add to Cart Add

Black Seed + Omegas5.0 (1) A Legacy Rooted in Antiquity! Black seed, also known as Nigella sativa, holds a legendary place in history as one of the most revered medicinal seeds. Often referred to as the "seed of blessing" (Habbat al-Barakah in Arabic), its roots trace back over 2,000 years, with mentions in ancient texts and traditions spanning multiple civilizations. The earliest records of black seed come from Ancient Egypt, where it was discovered in King Tutankhamun's tomb—a testament to its esteemed status. Egyptians used black seed oil as a remedy for digestive issues, skin conditions, and to boost vitality. Queen Nefertiti reportedly incorporated black seed oil into her beauty regimen to maintain her radiant complexion. In Greek and Roman eras, Hippocrates, the "Father of Medicine," documented its ability to support respiratory health and aid digestion. Dioscorides, a prominent Greek physician, praised its use for treating headaches, toothaches, and various infections. The significance of black seed carried into Islamic medicine, where it was immortalized in the words of the Prophet Muhammad, who proclaimed: "Hold on to the use of the black seed, for indeed it has a remedy for every disease except death." This proclamation solidified black seed's role in traditional medicine across the Middle East, Asia, and Africa for centuries. \$31.99Add to Cart Add

Vasculaid4.4 Our Vasculaid™ formula is comprised of nutrient dense plant compounds that have a history of helping to strengthen, nourish and revitalize the blood vessels and heart. In many blood pressure and cardiovascular cases, either the heart has severely been compromised via the blood vessels. Or the heart is on it's way to being compromised for lack of blood circulation. Our formula places an emphasis on promoting blood circulation via herbs such as cayenne, cinnamon bark and ginger, in addition to blood supplying the raw materials to aid the heart to help strengthen itself. The heart is the body's most electrical organ and thus must be given ultimate priority. The blood vessels are the transport of blood to and from the heart and throughout the entire body which make them also extremely important. In many heart attacks or heart issue cases, the cause is often linked to a clogging of one of our body's primary set of blood vessels called arteries. When there is a clogging the heart becomes collateral damage as blood can no long effectively flow to and from the heart. Lack of blood to the heart means lack of oxygen. \$28.99Add to Cart Add

Magnesium 3004.8 Magnesium is one of the most essential minerals for human health, playing a critical role in over 600 biochemical reactions within the body. It is vital for energy production, muscle function, nerve signaling, heart health, and bone strength. Magnesium helps regulate blood sugar levels, supports a healthy immune system, and promotes a calm, balanced nervous system, reducing stress and anxiety. It also plays a key role in relaxing muscles, preventing cramps, and improving sleep quality. Consistently consuming magnesium on a daily basis helps maintain optimal cardiovascular function, supports cognitive health, and enhances the body's ability to detoxify and absorb essential nutrients. Additionally, magnesium is crucial for maintaining proper electrolyte balance, reducing inflammation, and preventing migraines. Without sufficient magnesium intake, the body can experience fatigue, muscle weakness, irregular heart rhythms, and poor sleep. Ensuring daily magnesium consumption is one of the most effective ways to maintain overall well-being and long-term health. \$24.99Add to Cart Add

Hepatic Support4.8 The liver is one of the body's most vital organs, responsible for detoxification, metabolism, and nutrient processing. It works around the clock to filter toxins, break down fats, regulate blood sugar, and support digestion, making liver health essential for overall well-being. However, exposure to processed foods, environmental toxins, and stress can overload the liver, leading to fatigue, sluggish digestion, and poor skin health. Thankfully, nature provides powerful liver-supporting herbs to help cleanse, strengthen, and protect this crucial organ. Milk thistle is renowned for its active compound, silymarin, which protects liver cells and aids in regeneration. Dandelion root stimulates bile production, helping to flush out toxins and support digestion. Burdock root is packed with antioxidants that help reduce liver inflammation, while turmeric contains curcumin, known for its anti-inflammatory and liver-repairing properties. Regularly incorporating these herbs can help enhance liver function, boost energy levels, and promote overall detoxification, keeping your body balanced and thriving. \$21.99Add to Cart Add	Internal Links	Dofollow

While there's no exact limit to the number of links you should include on a page, best practice is to avoid exceeding 200 links. Links pass value from one page to another, but the amount of value that can be passed is split between all of the links on a page. This means that adding unnecessary links will dilute the potential value attributed to your other links.

Using the Nofollow attribute prevents value from being passed to the linking page, but it's worth noting that these links are still taken into account when calculating the value that is passed through each link, so Nofollow links can also dilute pagerank.
